

The Australian Drilling Industry Training Committee Ltd (ADITC Ltd)

The Australian Drilling Industry Training Committee Ltd is a not-for-profit industry body has national responsibility to all sectors of the Drilling industry in Australia for the direction of industry training and qualifications for the Drilling Industry.

The Australian Drilling Industry Training Committee Ltd Board and Full Committee are formed from the formally-proposed Representative Membership of the Chairmen or Presidents of major industry associations and relevant stakeholder bodies in the drilling industry, and Ordinary Members at the most senior level of industry.

The areas of the drilling industry are as follows:

Blast hole drilling	Raiseboring
Environmental drilling	Coal seam gas drilling
Foundation/construction drilling	Oil and gas drilling, offshore
Geotechnical drilling	Oil, gas and geothermal drilling, onshore
Geothermal drilling	Seismic drilling
Horizontal directional drilling	Trenchless technology
Mineral exploration drilling	Waterwell drilling
Mineral production drilling	Hot rock geothermal drilling

The Australian Drilling Industry Training Committee Ltd was formed in 1978, and has been in continuous operation ever since. It delivers advisory and lobbying services, develops reference and resource materials for the industry, provides research and training /assessment services on and offshore and holds registration for an embedded Registered Training Provider. We provide assistance to all states in application for waterwell driller licences.
